ADA6H - 360

Operating and Installation Instructions

USAGE INSTRUCTIONS:

Before using our product, please read the user manual carefully. This will help you use it safely and effectively.

When driving, please do not operate the device, in order to ensure safe driving. We recommend using voice control or manual control functions.

If you repair the device yourself, it may affect the safety and quality of the device.

Please do not let the device come into contact with moisture or high temperature.

SAFETY NOTES:

- 1. When driving, please do not operate the device. This may endanger the driver and others.
- 2. Please do not disassemble or repair the device by yourself, unless you are a professional.
- 3. Please do not let the device come into contact with moisture or high temperature.

SPECIFICATIONS:

Item Weight	1.5kg
Impedance	4Ω
Model Name	ADA6H-360
NORMAL POWER	60W x 4
MAX. POWER	350W x 4
Size	110 x 100 x 45 mm
CABLE WIRE	38CM
RMS Power 2Ω	4 x 460W
Signal to Noise Ratio	>90dB (1W, 4Ω)
Frequency Response Range	20-20kHz (±3dB)

SYSTEM PLANNING

Proper system planning is the best way to maximize your amplifier performance. By planning your installation carefully you can avoid situations where the performance of the reliability of your system is compromised. Your authorized dealer has been trained to maximize your system's sonic potential. Your dealer is a valuable resource in helping you with your system design and installation.

DSP REQUIREMENTS

Voltage Supply

- 12V : Positive connection terminal for car 12V power supply.
- GND : Power supply negative connection terminal.
- Firmly and carefully connect the ground lead to a bare metal point on the vehicle chassis.
- Operation temperature : 0° - 70°C

Compatible PC OS

- **PC Application** with or higher than Windows XP
- **Android** mainstream Android devices with Alchemist's Android Mobile Application.
- **Bluetooth** Connect direct to your phone
